

# Peasmarsh Place Newsletter

We hope you all had a safe and healthy Christmas and New Year. We have been very busy here at Peasmarsh Place with staff continuing to pull together and work hard to ensure the safety of the home is maintained.

We are pleased to inform you that all our residents and staff have received their first dose of the COVID-19 Vaccination!

This was a big relief for all.

Kate our Practitioner Paramedic and the team from Rye Medical Center attended the home to vaccinate the residents and staff on Saturday 23<sup>rd</sup> of January 2021

Residents have continued to enjoy time in the lounge. There is always something happening to keep them occupied.

We continue to test our staff regularly; this has now increased to 3 tests per week. All staff have been trained to complete their lateral flow tests at home twice a week before their shifts on Mondays and Thursday.

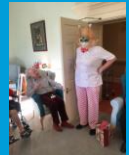

If you are dropping gifts or items to Peasmarsh Place for your relatives, we ask that you please label these so we can ensure they are delivered efficiently.

We hope that you all remain safe and well.

From all at Peasmarsh Place

## Christmas at Peasmarsh

Although Christmas 2020 was celebrated a little differently, the staff worked hard to ensure it was a fun and enjoyable day for all the residents at Peasmarsh.

The residents joined

each other in the lounge to open their gifts together followed by a traditional Christmas lunch in the dining room.
