

# Peasmarsh Place Newsletter

We would like to invite all who visit to complete a free COVID-19 Lateral flow test before each visit, this is of course optional but if you wish to complete a free test then please speak with a member of the team 😊

We hosted a wonderful summer open day with residents, family, friends and staff. Viscount and Viscountess Devonport attended the event which included Viscount Devonport giving an insightful talk about the history of the homes original layout and conversion into what we see today.

Residents enjoyed a lunch together in the Dining room, followed by a raffle in the lounge. It was lovely to see the children playing and enjoying themselves.

Thank you to all who came along. We are hoping to hold another event with family and friends soon!

We celebrated Eileen and Margaret's birthdays this month, we wish them many happy returns!!! Our cook always bakes up a lovely cake when our residents celebrate a birthday.

July was a busy month and it was lovely to have so many relatives attend our Summer event. Everyone seemed to enjoy it and we will be holding another social event in September – details to follow in our August newsletter.

We had an unannounced inspection by CQC in June and we have received the final report and are pleased to inform you we have retained our rating of Good. The full report is on our website. Thank you to my staff team for all their hard work and thank you to the residents and relatives that contributed to the inspection process.
